Summary

IT Graduate with a Bachelor's degree in Information Technology (2022) and over 3+ years of hands-on experience in software and web development. Skilled in **Java, Python, JavaScript, React, and MySQL**, with a solid understanding of both frontend and backend technologies. Experienced in building responsive web applications and working with frameworks like **React and Spring Boot**. Passionate about continuous learning, problem-solving, and contributing to innovative, growth-oriented projects.

Skills

Languages: JavaScript, Python, Core Java, Java8
Frameworks: Nextjs,Reactjs, Spring, Spring Boot, Spring MVC,FastAPI
Architecture & Principle: System Design, Design Patterns, SOLID Principles, Object-Oriented Programming (OOP)
Caching & Messaging: Redis, Apache Kafka
Version Control & Build Tools: Git, GitHub, Jenkins, Docker
IDEs & Utilities: Postman, IntelliJ, VS Code, Eclipse
Databases: MySQL, PostgreSQL
Soft Skills: Team Collaboration, Problem Solving, Communication

Experience

SJLF PVT LTD | Software web Developer **December 2022 – Present**

- **Tech Stack: JavaScript, React-js, Next-js, Node-js, REST APIs, MySQL, GIT**
- Developed and maintained responsive web interfaces for the company's main website and admin dashboard using React, JavaScript, HTML, and CSS, improving overall UI responsiveness by 35%.
- Participated in **end-to-end feature development**, including requirement analysis, implementation, testing, and deployment.
- **Collaborated with QA and product teams** to deliver robust and high-performance modules under strict timelines.
- **Improved system stability** through effective bug resolution, code reviews, and best practices in version control.
- **Supported production releases and post-deployment** monitoring to ensure reliability and business continuity.
- **Optimized SQL queries** and improved backend logic to reduce response latency and enhance API throughput.
- **Modularized backend services** to improve scalability, maintainability, and integration with enterprise systems.
- **Contributed to technical documentation and knowledge sharing**, ensuring smooth onboarding and handovers within the team.

Projects

Book Inventory Management System

https://github.com/amans8270/Book_Manangement_Inventory • November 2023 - December 2023

- Designed and developed a **Book Management Application** to perform complete **CRUD operations** (Add, View, Update, Delete books).
- Built a **responsive frontend** using **React / Next.js** with clean UI and user-friendly navigation.
- Implemented a **RESTful backend** using **FastAPI / Node.js**, handling business logic and API security.
- Integrated **MongoDB** for efficient data storage, retrieval, and indexing.
- Implemented **search, filter, and pagination** features to manage large book inventories efficiently.
- Used **JWT-based authentication** to secure user access and protect APIs.
- Followed **MVC / modular architecture** for scalability and maintainability.

Certifications

- **Java Full Stack by Stackroute**
- **Wipro Java Full Stack Internship**

Education

B.Tech. Information technology **2018–2022**
